

You've long trusted the research-based *Gates-MacGinitie*Reading Tests® (GMRT) to measure essential reading skills.

Riverside Insights has introduced valuable updates to this dependable assessment.

GMRT Normative Update

The *GMRT* Normative Update provides up-to-date comparisons for reading achievement. The 2017 Normative Update reflects changes in student performance, providing educators with the comparisons of reading performance that more accurately reflect reading achievement today.

Having up-to-date normative information is critical in times of change and education reform, as normative comparisons inform many education-related decisions. Using *GMRT* with its updated norms allows you to assess student reading performance, make comparisons, and create effective instructional plans with greater confidence and accuracy.

GMRT Overview

Author: Walter H.
MacGinitie, Ruth K.
MacGinitie, Katherine Maria,
Lois G. Dreyer,
Kay E. Hughes

Purpose: to provide updated normative data from administrations of *GMRT*, which assesses student achievement in reading.

Ages: K-Adult Reader

Scores: National Percentile Rank (NPR), Extended Scale Score (ESS), National Stanine (NS), Grade Equivalent (GE), Normal Curve Equivalent (NCE), Raw Score, Lexile®

New and Improved Look for GMRT Reporting

GMRT online reporting is now available in DataManager—
the same online reporting tool used
for managing other assessment programs such as the
lowa Assessments™, Logramos®, and CogAT®.

DataManager offers powerful and flexible online reporting allowing you to view, disaggregate, and analyze your assessment data. You will continue to have a wide-array of reporting options depending on your data needs, whether viewing individual student or class and district summary data to analyze performance and create effective instructional plans.
