Riverside Insights®

Assessments for English Learners

Woodcock-Muñoz Language Survey III
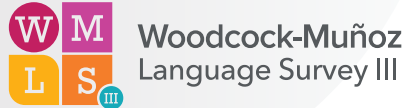

· Fast and reliable assessment in the areas of listening, speaking, reading, and writing

· Two English forms and one Spanish form to help determine language proficiency and dominance, eligibility for EL services, readiness for English-only instruction, and need for additional testing

· Test organization helps evaluate and monitor growth or change in basic and applied language skills

· Access checklists that illustrate the impact of language background and academic language exposure on test results

· Pair with the Teacher and Parent Intervention System to identify classroom, literacy, and program recommendations based on test results

Batería IV

· A comprehensive assessment system to evaluate native Spanish speakers

· Spanish language parallel of WJ IV

· Updated norms and content reflect current Spanish linguistic conventions and culture

· Ease of use and flexibility to evaluate learning problems for Spanish speaking children and adults

· Utilizes the same CHC framework as the WJ IV

· Allows for direct comparison of a student's skills in Spanish & English when used in conjunction with the WJ IV

· Facilitates exploration of strengths and weaknesses across cognitive, linguistic, and academic abilities

Battelle 3 Developmental Inventory 3rd Edition Spanish

• Comprehensive measures of developmental milestones across social-emotional, communication, cognitive, motor, and adaptive domains from birth to 7 years, 11 months, whose primary language is Spanish

• Spanish language parallel of BDI-3 with updated content and artwork adapted to represent Hispanic culture

• Administer items via interview, observation, or structured formats

• Evaluate more efficiently with the Screening test or more holistically with the Developmental Complete test

• Access comprehensive reporting through Riverside Score including skill level indicators

• Digital administration is available through the Mobile Data Solution

Riverside Insights®

Assessments for English Learners

ARABIYA

· The first comprehensive assessment to cover CHC abilities in Arabic

· Developed using Modern Standard Arabic language

· Original items and content sensitive to Arabic culture

· Normed on 2300 people in the country of Jordan and validated on 700 participants from 9 countries in the Middle East

· Batteries can be used in conjunction or as standalone assessments

· Clusters engineered to provide the most diagnostically useful interpretations

· Facilitates exploration of strengths and weaknesses across cognitive, linguistic, and academic abilities

Logramos® TERCERA EDICIÓN

• Group administered achievement test in Spanish

• Measurement of critical thinking skills through test items that measure higher-order cognitive skills across all content areas, including Science and Social Studies

• Identification of student strengths and weaknesses for relative comparisons by content areas and skills across groups and individuals

• Comparisons of student performance to that of local and national groups, according to research-based evidence

• The use of Spanish vocabulary that is common among students from a variety of Spanish-speaking countries

• Valid and reliable data to support school system and state reporting requirements for accountability

CogAT®

• Measure students' verbal, quantitative, and figural reasoning abilities

• Alternate-Verbal administration for grades K through 2 with no specific language requirement

• Online instructions available in eight languages

• Links to instructional strategies through unique Ability Profiles™

• View EL students' results both separately and with English-speaking peers
