Maria Lopez was recently given the Logramos assessments. This report is designed to give you information about Maria's achievement level in core subject areas. Along with the results of this assessment, classroom work, grades, and other test results should also be reviewed for a more complete picture of academic progress.

### Maria's Achievement Today

The graph to the left provides the National Percentile Rank (NPR) for each test and test composite in the assessment. The NPR indicates the percent of students in the same grade who obtained a lower score than Maria.

Scores from 75-99 are in the above average range. Students with LA Total and/or Mathematics Total scores in this range may be ready for more advanced work including extending ideas when reading, developing an advanced reading vocabulary, or writing with logic and clarity, as well as expanding on higher level problem solving and data analysis skills in mathematics.

Scores from 25-74 are in the low average to high average range. Students with LA Total and/or Mathematics Total scores in this range may continue to improve by developing such skills as drawing conclusions when reading, expanding reading vocabulary, or writing with attention to sentence structure and purpose, as well as solving number sentences and reading basic charts and graphs.

Scores from 1-24 are in the below average range. Students with LA Total and/or Mathematics Total scores in this range may require reinforcement in such areas as understanding stated information when reading, developing a basic reading vocabulary, or writing with standard usage and grammar, as well as understanding number properties or solving simple number sentences.

### Maria's Achievement Yesterday and Today

Logramos assessments measure student achievement and growth. The Grade Equivalent (GE) describes student performance in terms of grade level and month. The GE makes it possible to follow Maria's educational growth from year to year by comparing this year's scores to those from earlier years.

### Notes:

### Legend

GE = Grade Equivalent      NS = National Stanine  
 LPR = Local Percentile Rank  
 LS = Local Stanine  
 NPR = National Percentile Rank

\*\* = Ext LA Total is included in Core and Complete Composite calculations.  
 Please contact your child's teacher if you need assistance with score interpretation.
