

Cognitive Abilities Test™

CogAT®, the **industry-leading abilities assessment and most reliable instrument on the market**, helps educators discover how best to help students learn.

CogAT Provides

AGED-BASED LOCAL NORMS

Student ability continues to develop month over month whether in or out of school - particularly at the primary grades. *CogAT®* offers **Aged-Based** norms based on student age in months. *CogAT* also offers Local Percentile Rank (LPR) and Local Stanine (LS) scores generated from these aged-based scores, so students are compared against local peers, allowing for both precision and equity.

NATIONAL NORMS AND SCORES

CogAT offers recent national norms and an entire library of both aged-based and grade-based scaled scores to assist in making programming and instructional decisions. Scores available include Standard Age Score (SAS), National Percentile Rank (NPR), Grade Percentile Rank (GPR) and others.

EQUITY FEATURES

CogAT is a research based assessment designed to provide reliable, valid, and accurate data for **all students**, regardless of language, ethnic background, or socioeconomic status.

- Alternative-Verbal administration for grades K through 2 with no specific language requirement
- Audio directions in multiple languages for online testers
- Large print booklets and other accommodations

For more on how *CogAT* works for **all students**, visit us online at info.riversideinsights.com/cogat_equity

THE ABILITY PROFILE™

Unique to the *CogAT*, the *Ability Profile™* offers a summary of a student's cognitive ability, areas of strength and weakness, and conveniently links to detailed information about that student's learning styles and suggestions for instruction. Teachers and parents can enter students' *Ability Profiles* at CogAT.com to view learning characteristics and instructional suggestions.

ADMINISTRATION MODES

Riverside Insights® offers multiple modes of administration for *CogAT®*, the *Iowa Assessments™*, and *Logramos®*, including:

- Online testing – our most flexible option
- Paper/pencil testing with direct-to-desktop online reports
