

Woodcock-Johnson® V (WJ V) Sneak Peek 2024

The **Woodcock-Johnson V** (WJ V) system is structured to offer customized, efficient, and flexible assessments that examiners need to accurately evaluate learning problems in children and adults. The WJ V is designed to measure intellectual abilities, academic achievement, and oral language abilities.

What's new with WJ V?

New Features

Some of these new offerings will be released throughout 2025.

- Introducing a **new voice capture feature** which will improve scoring accuracy, particularly on timed retrieval tasks.
- The introductions to tasks on several tests are in a **video format, allowing a standardized presentation.**
- Users can select the reason for referral and **recommended clusters are automatically created**, reducing time spent on test preparation. This feature will not be available at publication, but later in 2025.

All the Tests You Love, Plus so Much More!

Not all new tests, clusters and features will be available at launch, and some test names may change.

New Tests

- Verbal Analogies
- Matrices
- Visual Working Memory
- Story Comprehension
- Symbol Inhibition
- Math Problem Identification
- Written Language Samples
- Magnitude Comparison
- Academic Vocabulary
- Rapid Letter Naming
- Rapid Phoneme Naming
- Rapid Number Naming
- Rapid Quantity Naming
- Paragraph Reading Comprehension
- Letter Writing Fluency
- Number Sense
- Oral Language Samples
- Sentence Writing Accuracy
- Phonemic Word Retrieval

New tests in the WJ V Tests of Achievement and Virtual Test Library:

Paragraph Reading Comprehension, Story Comprehension, and Language Expression - These tests give a deep dive into literacy skills, decoding abilities, and language proficiency to pinpoint specific areas requiring attention

Letter-Writing Fluency and Sentence Writing Accuracy - These tests explore a student's written communication skills at a significantly deeper level, identifying strengths and areas for improvement to enhance overall academic performance

Number Sense, Math Problem Identification, and Magnitude Comparison - These tests help assess mathematical proficiency and uncover potential challenges, paving the way for targeted intervention and support

Rapid Letter Naming, Rapid Phoneme Naming, Rapid Number Naming, and Rapid Quantity Naming - These tests help in understanding reading ability and are an important indicator in dyslexia and math disorders

New tests in the WJ V Tests of Cognitive Abilities:

Matrices - A test of fluid reasoning abilities, which is less influenced by cultural and linguistic factors

Visual Working Memory - A test of visual-spatial working memory which requires the use of visual working memory in the context of processing

Sound Reversal - A test of phonetic coding (aka, phonological awareness) that requires the active manipulation and maintenance of sound

Symbol Inhibition - A test that emphasizes multiple executive cognitive control processes such as sustained attentional control, response inhibition, and efficient working memory management

New Clusters

In addition to the new clusters listed below, the **General Intellectual Ability (GIA)** cluster has been updated and no longer includes any test of **Auditory Processing** and has replaced a measure of **quantitative reasoning/knowledge (Number Series)** with a **Matrices** test.

- Inductive Reasoning
- New Learning Efficiency
- Retrieval Fluency
- Working Memory-Attention Control
- Perceptual Speed-Search
- Cognitive Efficiency-Extended
- Basic Reading Skills- Extended
- Expressive Language
- Reading Fluency- Extended
- Spelling Skills
- Number Concepts
- Math Problem Solving- Extended
- Phonemic Awareness
- Phonemic Awareness- Extended
- Phonemic Manipulation
- Phonemic Manipulation- Extended
- Retrieval Fluency- Extended
- Phonemic Retrieval Fluency
- RAN- Reading
- RAN- Math
- Auditory Working Memory- Extended
- Auditory Memory Span- Extended

Two Pricing Options: Buy Your Way

WJ V offers two simplified pricing models without the upfront expense of a kit

With each model...

Only pay one annual price	No limit on the number of licenses or users
No additional scoring or reporting fees	Add examiners at any point

Pricing Options

Unlimited Subscription

- **Term:** Annual
- **Model type:** Unlimited
- **What do you get:** Unlimited use of the WJ V Suite of Assessments (pending qualifications)
- **How it would work:**
 - Pay for the **total number of students** within your school system based off total enrollment from the prior year

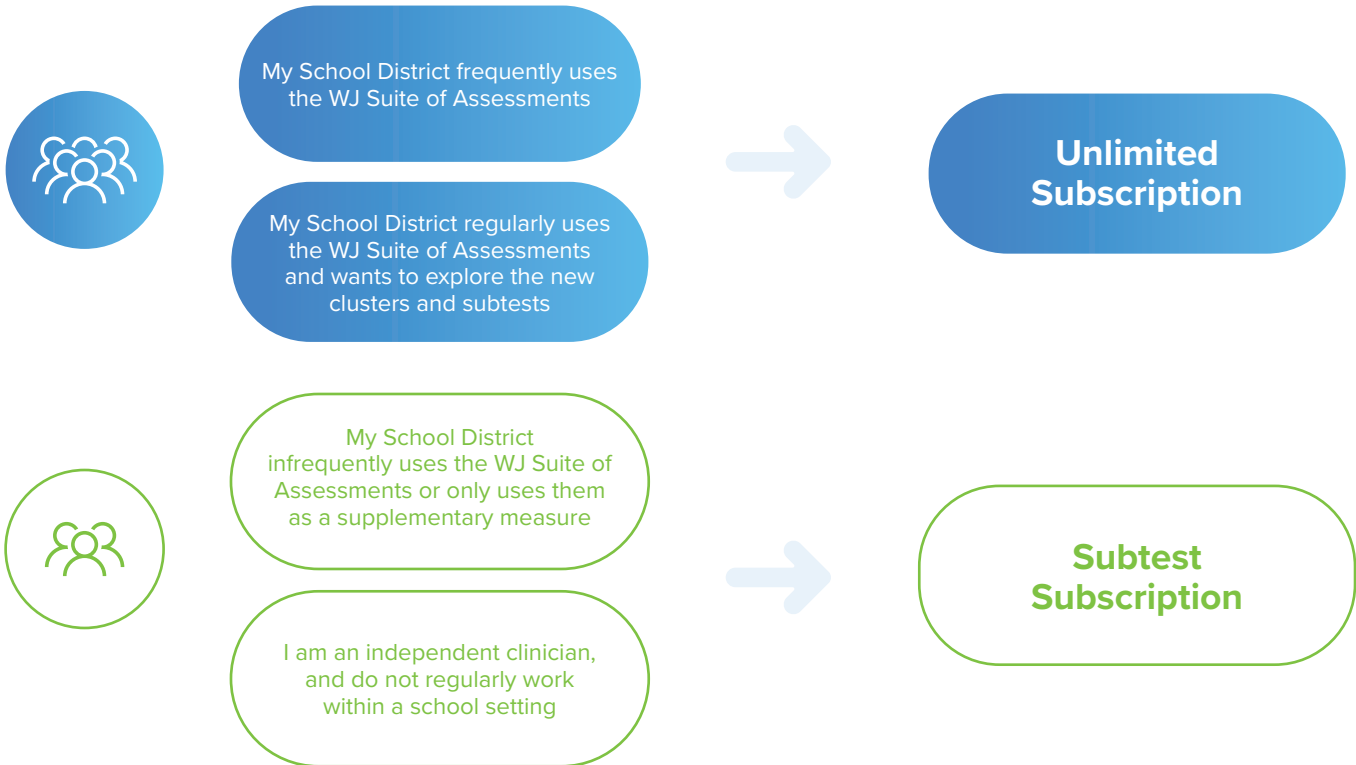

Subtest Subscription

- **Term:** Annual
- **Model type:** Usage Based
- **What do you get:** A number of subtests to administer throughout the year
- **How it would work:**
 - Pay for individual subtests on an annual basis, giving examiners the choice to choose any subtest, from any battery, for the same price (pending qualifications)

Which Model is Right for Me?

Woodcock-Johnson V Unlimited: Student Based Pricing

Schools and districts pay for the **total number of students** within their school system based off enrollment from the prior year. This grants annual **unlimited access to all WJ V products²** and comprehensive training materials for **only \$0.75 per student.**

The Woodcock-Johnson V Complete Battery Plus Bundle includes the Tests of Achievement, Tests of Cognitive Abilities, and a Virtual Test Library to assist you in gaining the full, comprehensive view of your examinee’s performance as well as access to robust reporting. Extensive online training is included in the price, so all users can fully understand the capabilities of WJ V.

Calculating Your Price

School	# of Students	Total Annual Cost ¹
Pint-sized Preparatory	1,000	\$750
Midway District	10,000	\$7,500
Paramount Public Schools	75,000	\$56,250
Your School	# of students	\$0.75 * number of students

¹ Not including taxes
² This does not include ECAD, WIIP, WMLS III, and Bateria

Woodcock-Johnson V Subtest Subscription

Schools and districts pay for individual subtests on an annual basis, giving examiners the choice to select any subtest, from any battery, for the same price (pending qualifications). Purchase as many or as few subtest as you like, based on your particular usage needs. Users have the option to purchase additional subtests throughout the year but will have a single subscription date, based off the first purchase date. For example, if you buy 100 subtests on January 1, and 25 more on March 1, all 125 subtests expire on December 31st of that year.

Access only the subtests you need with simple pricing per subtest. Users purchase subtest tokens for \$2.50. These tokens can be used to administer subtests within any battery (as they have already purchased them). Examiners can choose exactly the subtests they would like to administer.

All purchases have a \$200 minimum and online training is included in the price, so all examiners can fully understand the capabilities of WJ V.

Calculating your Price

School	# of Subtests	Total Annual Cost
Pint-sized Preparatory	1,000	\$2,500
Midway District	5,000	\$12,500
Paramount Public Schools	10,000	\$25,000
Your School	# of subtests	\$2.50 * number of subtests

¹ Not including taxes
