

Real-time Data on Student Well-being

We know students learn best and teachers teach best when they feel supported, safe, and connected. But do we know how students are feeling? Are we building classroom and school cultures that nurture the whole child and foster well-being for everyone?

What is *ei Pulse*?

ei Pulse is a system that provides **actionable insights** on student and staff well-being and overall school culture through short, 60-second weekly check-ins. Students and teachers respond to a series of engaging, research-backed questions, starting with "How are you feeling today?" creating an opportunity for **self-reflection** and **self-advocacy**. The simple and **easy-to-use** platform can be accessed on laptops, phones, and more and generates **quick snapshots** and **data trends** to inform your SEL strategy and enhance school health.

Visit riversideinsights.com/eipulse to determine how *ei Pulse* can help you monitor your student and teacher well-being.

A Quick "Pulse Check" to Inform School Culture

Developed by industry experts at Educator Impact, *ei Pulse* **amplifies student voices** and **empowers educators** with feedback to help personalize connections, shape classroom climates, and strengthen school communities. Educators can respond to student and staff needs **immediately** and monitor the success of individual or whole school interventions.

The *ei Pulse* Advantage

- ✓ **Move beyond measurement** and quickly respond to well-being matters
- ✓ **Connect students with help** and make them active participants in their own well-being
- ✓ **Collect real-time data, all the time** through 60-second weekly pulse checks
- ✓ **Transform your school** and create a positive culture through gratitude
- ✓ **Optional Clever interface** for easy, seamless rostering
